Where ? : in uno ancien Museum of Sao Paulo, in Brasil, today désafectado.

How ? : in uno space totalemente vide, in the middle of un immanse hall completely deserto :

What : uno newspaper imprimato (!), like in the beginning of the century. Only one exemplar, simplemente au sol, on the ground, like abandonnato. The last newspaper. The lost newspaper.

Content ? : Una compilação d'images & de very long texts. Surprise : not in a mix of languages, but only in francese !!! Uno objet-surviving after BIG CRUNCH II.
